Just when you thought you had a quiet day...

See below and let me know if this is helpful. These were all from yesterday so if we have responses ready maybe we can have them out by COB today. Is that possible?

Cindy -

As you know - we are working to meet the deadlines for rolling out week #1 data next week. [Ex. 4 - CBI] is doing a great job in following up on the EPA responses to her initial project level reviews. Where the response is accepted and no additional qualifiers are recommended - John and I are recommending the data be considered final and noted as such in Scribe. Once all data for the first 11 homes is in Scribe (as final) we will prepare a data summary table for our tox to review. Hoping to get her started on her review of the final data early next week.

[Ex. 4 - CBI] has indicated where she feels additional EPA feedback is needed (currently 6 e-mails requiring follow-up). I know you have been busy trying to post new data, prepare for next week's sampling, etc... Not sure whether you have had a chance to review her e-mails yet. I would like to try to close the loop as soon as possible for the files that area associated with the week #1 data (more if we can do so). I am not whether you will find this helpful (I needed it for myself) - I went thru all of [Ex. 4 - CBI] recent reviews and made a list/summary of the e-mails where follow-up is needed (noted below).

After you have had a chance to review the various e-mail, please let me know your recommendations for finalizing this data (I believe most of this has to do with final the qualifiers). I am sorry for all the pressure - but I need to have some feedback by Monday. If you think it would be helpful - I can set you a conf call with John [Ex. 4 - CBI] for Monday morning. Let me know what you think.

Thanks again - Kelley
